STEPS TO
SUCCESS

I can consider what I
already know about
predators.

I can answer our new
Unlock Questions
honestly.

Activating Prior
Knowledge

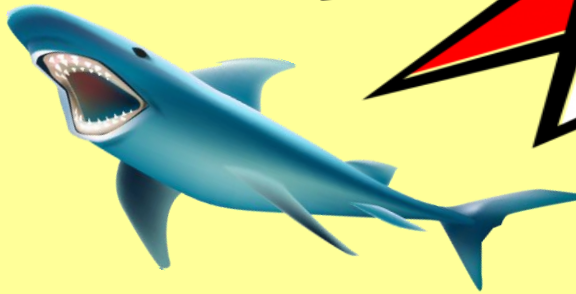

Did you enjoy our Through
the Ages topic?

Our new topic is...

Predator!

Unlock Questions
What I Know!

Science – What is a food chain and what vocabulary do we use when describing a food chain?

Science – What are the different types of diet?

Geography – Where can we find deadly predators? Can you give examples?

Science - Why do we have skeletons and muscles? What does our skeleton look like?

At the start of a new topic, we always have a go at answering our Unlock Questions using **only what we already know**.

We don't want you to find out the answers now if you don't know - we are going to learn throughout the topic and answer them again at the end of it!

My Example (from a different topic)

What I Know!

People visiting → lots of people

Illness in London

The Tube!

I think these are the reasons why an illness would spread quickly in London!

The Black Death sounds like a disease that causes death. When a person dies, their blood might turn black and ooze from their eyes & nose!

I've never heard of it though - I think it's a disease because of the other unlock questions.

If it was a long time ago, maybe there wasn't a cure!

Cures!

tablets

antibiotics

Medicine

Hospital

Operation

Injection

Bread and water

Poor

Dirty homes

Rich

Delicious meals (feasts)

Knights have swords and shields

Unlock Questions
What I Have Learnt!

Science - What is a food chain and what vocabulary do we use when describing a food chain?

Science - What are the different types of diet?

Geography - Where can we find deadly predators? Can you give examples?

Science - Why do we have skeletons and muscles? What does our skeleton look like?

Unlock Questions
What I Know!

Science - What might the Black Death (Plague) have been?

Geography/Science - Why would illness spread so quickly in London?

History - What might the life have been like for rich and poor people in medieval England (think about knights too)?

History/Science - How might people have tried to cure the plague?

You could also set your learning out like this...
