TBQ: Can I solve missing number problems?

SMART Notebook
— basic version —
Connect to a SMART Board® to hide watermark

I would like you to use everything you have learnt this week for today's challenge. Have a look on Tuesday and Thursday's Notebooks if you need to remember how to work out the missing number problems.

Challenge – Can you work out these missing number problems?

1 $6 + \underline{\quad} = 12$

2 $12 - \underline{\quad} = 6$

3 $5 + \underline{\quad} = 11$

4 $11 - \underline{\quad} = 5$

5 $3 + \underline{\quad} = 11$

6 $11 - \underline{\quad} = 3$

7 $\underline{\quad} + 5 = 9$

8 $9 - \underline{\quad} = 5$

9 $\underline{\quad} + 7 = 11$

10 $11 - \underline{\quad} = 7$
