Audio  
Recording

For today's starter, can you name these 3D shapes?

5.2.2021

TBQ: Can I divide?

I know  
what  
division  
is.

I know other  
vocabulary  
for  
divide.

I can use a  
concrete or  
pictorial  
method if I  
need to.

I recognise  
some  
times  
tables in  
relation to  
division.

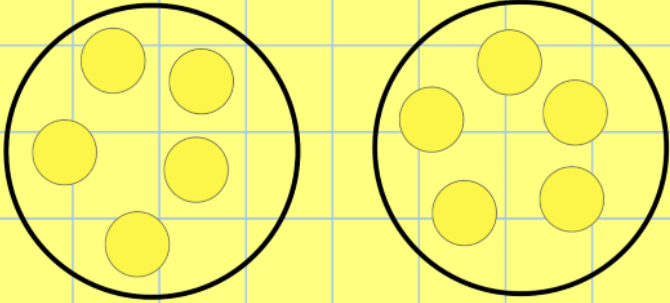

Audio  
Recording

$10 \div 2 =$  Model

$10$  shared by  $2$

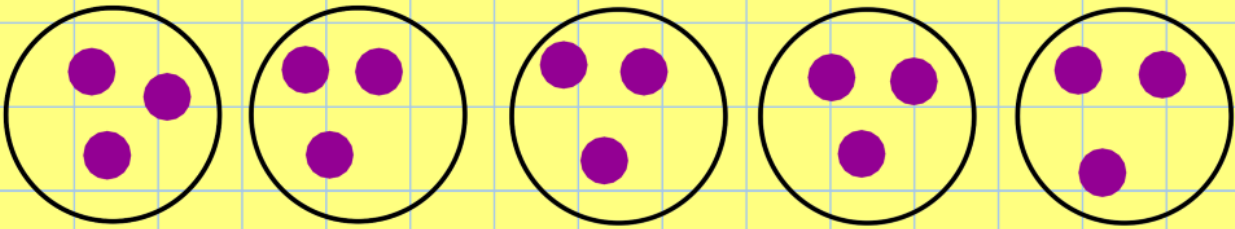

What could we use to help us? What is the question asking?

$15 \div 5 =$  Model

$15$  shared by  $5$

What could we use to help us? What is the question asking?

Challenge - There are 3 different chilli challenges below. I would like you to choose which one you think you can do - if you find it too hard or too easy, you can always change your challenge. Remember to draw your dots or use your objects like I have shown you to work out the answers.

Mild 🌶️

$6 \div 2 =$

$10 \div 2 =$

$18 \div 2 =$

$20 \div 2 =$

$10 \div 5 =$

$15 \div 5 =$

Hot 🌶️🌶️

$12 \div 2 =$

$16 \div 2 =$

$24 \div 2 =$

$10 \div 5 =$

$25 \div 5 =$

$20 \div 10 =$

Scorching 🌶️🌶️🌶️

$26 \div 2 =$

$32 \div 2 =$

$30 \div 10 =$

$20 \div 5 =$

$12 \div 3 =$

$18 \div 3 =$

Challenge – Reasoning Rex

$$9 \div 2 =$$

What do you notice?
